

Karen Mizia

MBBS, BSc (Hons), FRANZCOG, DDU, COGU, MFM

Karen is a qualified Obstetrician Gynaecologist who entered Medicine after seeking a life change from my previous career. Currently working in both a private dedicated women's ultrasound practice and as a Senior Staff Specialist working in Fetal Medicine, Karen works with two different groups of dedicated conscientious colleagues who have helped her understand that Medicine and Ultrasound can be expertly practiced in different ways and that one rule does not fit all. This has led her to be involved with ASUM; as an examiner for the DMU and DDU, a member of the Research Grants committee and currently as chair of the Standards of Practice (SOP) committee. During her involvement with SOP she has strived to ensure that the policies and guidelines maintain a high standard without becoming too prescriptive.

Current & recent previous professional positions

Currently Senior Staff Specialist Westmead, Karen was previously Senior Staff Specialist in Canberra Hospital a Sonologist in Private Practice and a Clinical Lecturer at Sydney University

Current and previous positions held with ASUM and length of ASUM Membership:

An ASUM Member since 2005, Karen has been Chair of the Standards of Practice Committee since 2012, a member of the Research Grants Committee since 2012 and a DDU examiner since 2014.
