CCPU Assessors

- CCPU logbook assessors and assessors of summative and formative assessments should possess a CCPU in the relevant unit, DDU, FRANZCR, DMU or equivalent or be a sonographer registered by ASAR or NZ MRTB. Assessors must be practicing in the relevant area.

- A CCPU Assessor must sign off on the two formative assessments (directly supervised with suggestions and advice provided during the scan) and one summative assessment (no assessor input allowed) using the form provided in the CCPU syllabi. These three completed forms will need to be submitted to ASUM along with the completed logbook.

- The CCPU Assessor must also sign off on the completed logbook before it is submitted to ASUM.

- For more details on logbook requirements please visit the CCPU syllabi
