

## High Resolution Breast Ultrasound: A Toshiba Initiative for better Education, Videotape

By Jack Jellins, 1996 (Image Teaching Technologies)

An educational videotape of real-time breast ultrasound which illustrates:

- Imaging Principles
- Examination Techniques
- Interventional Procedures
- Normal Anatomy
- Benign Conditions
- Malignant Conditions

Selected material of more than 50 ultrasound examinations is presented with an emphasis on key diagnostic features and reference to relevant mammographic findings and final pathological diagnoses. A coordinated team approach to breast disease management is demonstrated through a panel discussion.
