

## Perth Paediatrics Workshop

On Saturday September 19<sup>th</sup>, Perth hosted the ASUM paediatric workshop. Lorna Hardiman, a general sonographer from New South Wales specialising in paediatrics, was joined by local paediatric Radiologist, Dr Bradley Wood. The event was held in the FJ Clarke Lecture Theatre at the QEII Medical Centre, with over 40 registrants coming from all over the state.

The attendees were a mixed group, mainly comprising of general sonographers looking to increase their paediatric scanning knowledge. Topics covered included paediatric hips and spine, scrotum/ inguinal canal, head and acute abdomen, with live scanning of the foetal head and hips. The presenters were very knowledgeable and informative.

Thank you to the presenters and Toshiba for sponsoring the day.
